ROADMAP

Q1

Project Setup and Planning

- Define project scope and goals.
- Research and select necessary tools and technologies.

Pre-registration and Marketing

- Launch pre-registration for .blast domain names.
- Promote pre-registration through various channels.
- Develop the smart contract for \$BD token presale.

Token Presale and Whitelist

- Conduct the \$BD token presale.
- Provide whitelist access to participants who purchase .blast domains.
- Release the dapp on the mainnet for early access.

June

April

May

Q2

Dapp Enhancement and Testing

- Review and improve the existing dapp for the Blast platform.
- Collect user feedback and conduct testing for the dapp.
- Make necessary adjustments and improvements based on feedback.

Airdrop Competition Preparation

- Plan and organize the airdrop competition.
- Set the rules, criteria, and rewards for participants.
- Continue marketing efforts to attract users.

Airdrop Competition and Engagement

- Launch the airdrop competition on the Blast platform.
- Foster user engagement and community growth.
- Collaborate with influencers and crypto communities for increased visibility.

August

July

September

User Acquisition and Partnerships

- Continue marketing efforts to acquire new users.
- Establish partnerships with other blockchain projects and dapps.
- Explore collaborations for expanding the ecosystem.

Domain Service Goals

- Set specific goals for domain service growth, such as the number of registered .blast domains.
- Continuously improve user experience and add new features to the dapp.
- Focus on user education and support for seamless domain management.

Community Building and Feedback

- Foster a vibrant community around .blast domains with active discussions and collaborations.
- Gather feedback from the community and implement requested features.
- Enhance user support and documentation.
